**Introduction**

The Department of Biosciences embraces the full breadth of modern, vibrant and internationally leading Biosciences programs. The MPhil program covers all aspects of the field, that strongly supports multidisciplinary integration and empowering students with flexibility to tailor their education to their skills and interests.

Students will gain skills and knowledge of their chosen field through a research project with planning research and the presentation their work through written, oral and visual communication.

## **Research Proposal/Synopsis:**

- Research proposal/synopsis of student fulfilling the coursework requirements is to be duly forwarded by the research supervisor(s), Chairperson, and Dean to the university's BASR in the prescribed format.
- The synopsis shall be accompanied by an ethical approval from the university's ethical committee, only if the study involves interventions prescribed by the ethical committee.
- Prior approval shall be requested from the BASR, before making any change in the previously approved research study.
