Overview

The Department of Cosmetic Sciences is a relatively new entity under the umbrella of the Faculty of Pharmacy at Salim Habib University. This department focuses on establishing the segment of cosmetics and personal well-being on scientific principles and developing dynamic and dedicated professionals through subject study, development, and innovation in the field of cosmetics and personal care.

As a leader in cosmetic education and research, our department is committed to advancing the science and practice of cosmetics

to meet the evolving needs of the beauty industry and society at large. Cosmetic Sciences rest at the intersection of Chemistry, Biology, and Aesthetics, offering a comprehensive curriculum that encompasses various aspects of cosmetic formulation, product safety, regulatory compliance, and marketing strategies. Our faculty is comprised of experienced professionals and researchers who bring a rich knowledge and expertise, fostering an environment of collaboration and innovation. We prioritize hands-on learning and practical experience, ensuring our students are well-prepared to succeed in the competitive cosmetic industry.

Our equipped laboratories and facilities provide the tools necessary for cutting-edge research and experimentation across diverse areas, including skincare, haircare, personal care, makeup products, and perfumery. We emphasize sustainability and ethical practices in cosmetics, preparing our students to be responsible leaders who consider the environmental and social impacts of their work.

The Department of Cosmetic Sciences is not only focused on academic excellence but also on community engagement and partnerships with industry leaders. Through collaborations, internships, and outreach programs, we aim to bridge the gap between education and practical application, creating opportunities for our students to thrive in their careers and contribute positively to the beauty landscape.

Vision

Our vision is to be the leader and mentor in the segment of Cosmetic Sciences, and enable the society to reap the meaningful gains in this vast but underdeveloped segment. We want to transform the concepts of beauty and well-being into modern theories and solutions through research, innovation, sustainable practices, and interdisciplinary collaboration.

Mission

Our mission is to develop and empower professionals and future leaders in the segment of Cosmetic Sciences, through comprehensive education, pioneering research, and community engagement. We are dedicated to cultivating a diverse and inclusive environment where students and professionals develop their skills and knowledge in product development, formulation science, safety assessment, and regulatory compliance. We strive to foster innovation in cosmetic products that enhance the quality of life for consumers while promoting ethical and sustainable practices within the industry.
