Career Services

Career Services is an undertaking of the Student Affairs department that assists undergraduate students in exploring all possible career options and deciding on a suitable career path that aligns with their capabilities, interests, and skills.

Our Career Services intends to bridge the gap between the needs of employers and the skills and passions of our students. We help you with not only the career planning process, but also with leading an effective job search, learning the fine art of networking and how to utilize it to create and maximize career opportunities, and ultimately with securing your dream job.

Our services include, but are not limited to, assistance with building resumes and portfolios, help writing cover letters, polishing interview skills, refining job search techniques, providing you with networking opportunities, connecting you with employers, and giving you career counseling and coaching.

We aim to help you learn, experience, and soar!
