Introduction

The Department of Biosciences at Salim Habib University (SHU) offers a PhD Biosciences program designed to address critical health-related issues affecting humans, animals, and plants. SHU provides state-of-the-art laboratories for advanced postgraduate research, supported by a diverse PhD faculty with extensive national and international research experience in areas such as disease mechanisms, diagnostics, bioinformatics, and genetic studies.

Our research efforts are focused on solving pressing challenges in food safety and security, environmental sustainability, and health concerns in the medical, agricultural, and livestock sectors. Utilizing cutting-edge in vitro, in vivo, and bioinformatics tools, we are committed to advancing knowledge and developing innovative solutions for a healthier world.

About Program

- Details
