**About the Library**

**Our uniquely designed library forms the central knowledge repository at SHU. Spanning over four floors and housing an excess of 15,000 physical volumes, the majority of which is curriculum books, 25000 digital volumes, and scores of international journals with notable impact factors, the library is designed to promote research and learning. It is administered by an online system, so students can look up the availability of books and reserve books**

**without having to physically come to

## **What People Say About Us**

**Want to know what Salim Habib University is all about? Here is how people experienced life at SHU.**

“I visited Salim Habib University. It was very impressive for me to get to learn more about the university’s philosophies and history behind, to meet the faculty members, and to also be able to see the labs and the way education is seen here. I believe that in France, we have in our mottos the word égalité – equality – and that here it goes well with the philosophy of the founding members. We want to hope for a chance to educate students

because we are both basically working for the same – we are working for the students, for the future, for the community.”

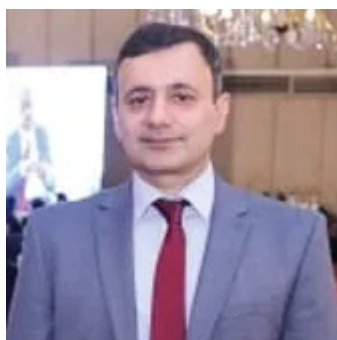

*Dr. Sabine Attachée for Scientific & Higher Education  
Cooperation Ambassade de France au Pakistan*

"I can say without a doubt that Salim Habib University is one of the very few universities in the country with such incredible international-standard infrastructure, and I believe it will continue to excel in academia as well."

*Dr. Kaiser Waheed President & CEO, Medisure Pharma Former  
Chairman, Pakistan Pharmaceutical Manufacturers Association*

"Salim Habib University and the work done by Dr. Salim Habib and Dr. Iram Afaq in linking education and industry are commendable. These huge facilities at the Korangi Campus are amazing. The Higher Education Commission has full support for this institution."

*Ahtesham Ali Raja* Director, National Business Education  
Accreditation Council (NBEAC), HEC

"I have visited Salim Habib University multiple times, and first of all, I'd like to give a tribute to Dr. Muhammad Salim Habib, who is a legendary figure and a dynamic leader, and whose philanthropic efforts and contributions to the pharmaceutical industry are so great that they need no introduction. Indus Hospital and Salim Habib University have a great working relationship, and it is commendable how the University's team and its students are committed with a passion to give back to society and help us in our various community service activities. I believe this relationship will last for as long as our two organizations last, I believe these students are our future, and I look forward to a bright future of Pakistan."

*Dr. Abdul Bari Khan* Founder & CEO Indus Hospital & Health  
Network

"Salim Habib University is very impressive. I think the architecture and the planning is very good. The labs are especially impressive, and the Sports Complex and Library as well. It's great to see what Salim Habib University is doing - relatively new but already impressive and making good contributions to higher education in Pakistan."

*Dr. Jonathan S. Addleton* Rector Forman Christian College  
Lahore

"I would like to congratulate Dr. M. S. Habib, whose vision, strength, and dedication, along with his generous heart, made it possible for an institution as grand and advantageous as Salim Habib University to be established, where thousands and thousands of young Pakistanis will be able to obtain quality education now, and in the years to come, and will thus create a culture of intellectual debate, discussion, research, and learning in the country."

*Javed Jabbar* Senator (R.)

"Once I compare to other universities, Salim Habib University is doing an awesome job, especially in the way they have established their laboratories, their setup of libraries, how highly qualified their Faculty Members are, and the quality of education they are providing. Moreover, they are introducing new fields which are the need of the times, such as Biomedical Engineering, which can equip students to deal with the world's challenges. Furthermore, it is the age of Artificial Intelligence, and the University is working on this as well, among other things. I really appreciate their efforts and contributions and especially their dedication to providing quality education."

*Muhammad Mureed Rahimoon* Secretary, Universities & Boards  
Department Government of Sindh

"I have the honour of shooting today at Salim Habib University. I'm really grateful for the information that I got today, which is that 80% of the students here study on scholarship. That is great, especially for students in Pakistan who wish to obtain higher education abroad or at local universities with good facilities and are not able to do so because of financial reasons. This is a great university because it serves the youth of this country, I feel really, really good to be here, and I encourage everyone to come visit and see for themselves the facilities it has to offer."

*Mahira Khan* Secretary, Universities & Boards Department  
Government of Sindh

I am so excited to see the facilities and modern infrastructure at Salim Habib University, and to meet its students. I believe this University and all it is doing will be greatly beneficial for Pakistan's education sector, and I congratulate Dr. Salim Habib and Dr. Iram Afaq on investing in the country's future."

*Prof. Dr. Kausar Abdullah Malik Former Federal Minister for National Food Security & Research, Pakistan*

"I have visited Salim Habib University a number of times and I have noticed one thing repeatedly - Dr. M. S. Habib, my guru and my mentor, has succeeded in turning his idea into a reality in doing for education and healthcare what the public sector has not been able to do. He has proved that where there is a will, there is a way, and has achieved what he set out to achieve. Salim Habib University has over one thousand students today, and that is success in itself. The departments and fields of study the University offers are in keeping with the demands of the modern world, and their graduates will be trained to help make the future of Pakistan better.

*Majyd Aziz Balagamwala Renowned Businessman & Industrialist President, MHG Group of Companies President, UN Global Compact Network Pakistan*

"I visited Salim Habib University, and being an educationist and an administrator, my opinion of the University is that it is an incredible institution. Most admirable is how personally invested its founders Dr. M. Salim Habib and Dr. Iram Afaq are in both the University and the role it is playing in the development of the youth of Pakistan. The University also has great infrastructure, with a state-of-the-art library and labs. I believe Salim Habib

University is a great gift to the people of this city and I recommend it to all young students!"

*Prof. Dr. Saeeduddin Former Chairman, Board of Intermediate Education, Karachi*

"I greatly admire what all of you at Salim Habib University are doing here, and what Dr. Salim Habib and Dr. Iram Afaq have made for Pakistan and its people in the form of this University. It was a pleasure to visit you, and we would be very glad to welcome the students of SHU to France and give them the opportunity to discover Europe and a new culture."

*Francois Keo Director International Relations, IMT Atlantique University, France*

"Salim Habib University for me, was a big surprise. Here, I found a place with a very good infrastructure. The faculty is the best I have seen. This is one of the top institution of Pakistan, so if you know the best, you're within the best, and I think that's what counts"

*Dr. Luiz Guilherme Heneine* Fundacao Ezequiel Dias (FUNED),  
*Brazil*
